PROSPECTUS
OF THE
THE FRASER RIVER
BEET SUGAR CO.
(Limited.)

Capital $50,000 in 500 Shares
of $100 each.

Deposit on Allotment $5 per share.
Calls not to exceed $10 per share at 30 days intervals between each call.

PROVISIONAL DIRECTORS:
ERNEST PICKE, Esq. — JOHN Z. WEBSTER, Esq.
C. N. TREW, Esq., M. D. — J. C. DISTER, Esq.
HENRY ELWORTHY, Esq. — J. K. SUTER, Esq.
WILLIAM YOUNG, Esq.

Secretary and Treasurer ..... HENRY V. EDMONDS
Solicitors ..... Messrs. ROBERTSON & JOHNSON
Bankers ..... THE BANK OF BRITISH COLUMBIA

Registered Office, Columbia Street
NEW WESTMINSTER.

The Fraser River Sugar Company, Limited, have been formed for the manufacture of Beet Root Sugar from Beets, to be grown on land acquired by the Company, consisting of rich alluvial soil well adapted for their growth.

This land contains all the essentials necessary for the cultivation of the best description of Sugar Beet, being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large tracts of equally valuable land can be had on very favorable terms; certainly not exceeding one tenth of the price of similar lands in California, and important consideration, as it will make a large difference in the amount of capital required.

From experiments already made on the land, the yield was found to be equal, if not superior to that from land cultivated in the most favored localities on the most improved principles.

The percentage of Saccharine matter, according to published accounts of the Sugar Beets grown in California, was 14 per cent. In the Fraser River Beets, the per centage was 10 to 11; six-tenths being granulated sugar of very fine quality, and the remainder molasses of the finest, a result unknown elsewhere.

This being the result on new land, and with the most imperfect appliances, it will be readily understood, that with a proper system of cultivation, and with proper machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 30th, 1872, was valued at over $100,000; the importation of Molasses, during the same period, amounted to $18,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulp, or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for beef, mutton, &c.

The best of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at $50,000, while power is reserved to the Shareholders to increase the working capital to $100,000, if considered advisable.

☞ Letters of Allotment can be obtained from the Secretary of the Company at New Westminster, and from the Bank of British Columbia, or Messrs. Robertson & Johnson at Victoria. fe20tf

To all to whom these presents shall come,—GREETING.

A PROCLAMATION.

Geo. A. Walkem, Q.C., Attorney-General. WHEREAS, by Section 2 of the "Road Tax Extension Act, 1872," it is provided that the Lieutenant-Governor in Council may, by Proclamation, divide any portion or portions of the Mainland of British Columbia into a Road District or Districts, with such boundaries as he shall think fit:

And whereas the Honorable Joseph W. Trutch, Lieutenant-Governor, by and with the advice of his Executive Council, in Council of aforesaid, under and by virtue of the powers and authorities conferred upon him in Council as aforesaid, and of all other powers and authorities him in that behalf enabling, with advice of his Executive Council, in Council, has divided the Districts, hereinafter mentioned, be created:

NOW KNOW YE, that We do hereby create the following Road Districts on the Mainland of British Columbia, that is to say:—

1. *The Cariboo Road District*, which shall include all that tract of land included in the Cariboo District, as set forth in the Schedule to "The Constitution Act, 1871."

2. *The Lillooet Road District*, which shall include all that tract of land included in the Cariboo District, as set forth in the Schedule to "The Constitution Act, 1871."

3. *The Yale Road District*, which shall include all that tract of land included in the Yale District as set forth in the Schedule to "The Constitution Act, 1871."

4. *Kootenay Road District*, which shall include all that tract of land included in the Kootenay District, as set forth in the Schedule to "The Constitution Act, 1871."

5. *The New Westminster and Coast Road Districts* which shall include all that tract of land included in the New Westminster and Coast Districts, as set forth in the Schedule to "The Constitution Act, 1871."

In Testimony Whereof, we have caused these Our Letters to be made Patent, and the Great Seal of the Province of British Columbia to be hereunto affixed: Witness, the Honorable Joseph William Trutch, Lieutenant-Governor of the said Province of British Columbia, in the City of Victoria, in the said Province, this fourth day of March, in the year of Our Lord one thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign.

By Command.
JOHN ASH,
Provincial Secretary. mh6

Geo. A. Walkem, Q.C., Attorney-General. WHEREAS, it is provided by Section 1 of "The County Courts Extension Act, 1872," that "The Mining Court constituted under "The Gold Mining Ordinance, 1867," shall "be and is hereby merged in the County "Court; and every County Court Judge of "British Columbia shall have and be possessed of the same jurisdiction, powers, and "authorities, as those had and exercised by "the Gold Commissioners appointed, acting, "and presiding as Judges of the said Mining "Court; and all proceedings thereunder shall "be had and taken in accordance with the "provisions of 'The Gold Mining Ordinance, "1867,' and 'The Gold Mining Amendment "Act, 1872,'"

And whereas a proviso is inserted that the Act should only have full force and effect in such portions of the Province as the Lieutenant-Governor in Council might, from time to time, by Proclamation order.

And whereas it is expedient that the said Act should have full force and effect in the Electoral District of Cariboo, except that portion thereof known as the Omineca Polling Division, and in the Electoral District of Kootenay:

NOW KNOW YE that We do order and proclaim that "The County Courts Extension Act, 1872," shall, from and after the date hereof, have full force and effect in the Electoral District of Cariboo, except that portion thereof known as the Omineca Polling Division, and in the Electoral District of Kootenay.

In Testimony Whereof, We have caused these Our Letters to be made Patent, and the Great Seal of the Province of British Columbia to be hereunto affixed: Witness, the Honorable Joseph William Trutch, Lieutenant-Governor of the said Province of British Columbia, in the City of Victoria, in the said Province, this Fourth day of March, in the year of Our Lord one thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign;

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c.

To all to whom these presents shall come—Greeting.

A PROCLAMATION.

Geo. A. Walkem, Q.C., Attorney-General. WHEREAS by a Proclamation bearing date the 28th day of September, 1871, made under the provisions of "The Election Regulation Act, 1871," notice was given that the School House, Langley, had been appointed to be the place of Nomination of Candidates for Election to the Legislative Assembly for the Electoral District of New Westminster.

And whereas a Writ, for the Election of a Member of the Legislative Assembly for the said Electoral District of New Westminster, is about to be issued.

And whereas owing to the difficulty of communication at this season of the year, and other cause, it is expedient that the place of Nomination for the said Election should be at Herring's Farm, in the said Electoral District.

And whereas by section 82 of "The Election Regulation Act, 1871," the Governor in Council is empowered to cause to be adopted such measures as may be necessary for removing any obstacle of a technical or formal nature, by which, or the want of which, the due course of an Election may be impeded:

NOW KNOW YE, that for the purposes aforesaid, the Lieutenant-Governor in Council appoints and declares that Herring's Farm shall be the place of Nomination for Candidates for Election to the Legislative Assembly.

In Testimony Whereof, we have caused these Our Letters to be made Patent, and the Great Seal of Our said Province to be hereunto affixed: Witness, the Honorable Joseph William Trutch, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this First day of March, in the year of Our Lord one thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign.

Opinion Success.

The *Colonist*, speaking of the re-election of the Hon. W. J. Armstrong by acclamation, bottles its disappointment at not having succeeded in finding a man willing to contest the District of New Westminster with him, and pretends to find consolation in the statement that "the absence of opposition to the re-election of a Minister is sometimes more ominous than the strongest opposition." In this particular case, what does it signify? Certainly not that the Ministry, of which Mr. Armstrong is a member, is wanting in public confidence. Had the policy of the Government been anything like as objectionable to the people of the country as the *Colonist* would have all the world believe, is it not fair to assume that a decided manifestation of public disapprobation would have been given upon the very first opportunity that presented itself? What better opportunity could have been afforded of testing the popularity of the Government than the Opposition had in the case of the vacancy occasioned in New Westminster District by the acceptance on the part of Mr. Armstrong of the newly-created portfolio, which has been so strongly condemned by one patriotic (?) neighbor? If public sentiment had been adverse to the course pursued by the Government, here was a chance to have made it manifest by electing the Minister of Finance to stay at home, and putting some one else in his place that would more fairly represent the wants and wishes of the people. Instead of so doing, he is allowed to walk the course unopposed, thus affording "further proof of the popularity of the Government and its measures." The fact of the members of the late Ministry having been re-elected without opposition, is not a parallel case, as our contemporary endeavors to show. In their case they were untried men. They were the inaugurators of an entirely new system of Government, without a policy upon which the electors could base an opinion as to whether they were or were not the right men to be entrusted with the reins of office; and the feeling generally prevailed that it would be unfair to set them aside and put others in their places before they had been given an opportunity to develop their policy and see what they intended doing. They were consequently re-elected upon their individual merits, and not as an endorsement of their ministerial policy. With the present Government the case was entirely different. The present Cabinet, with the exception of the Attorney-General, were all more or less opposed to the policy of the McCreight Ministry, and at least three out of the five availed themselves of every constitutional means in their power to bring about their overthrow; and those of them that returned to their constituents for re-election were under the necessity not only of justifying the course they had taken toward the late Cabinet, but of stating for their satisfaction and approval what the policy of the new Government would be, and in what respect it would differ from the policy of the Government they had just superceded. Their predecessors had pursued a conservative course, continued matters pretty much as they found them, which did not satisfy public expectation; but they accepted office with the avowed purpose of inaugurating a complete change in the method of conducting public affairs, of reducing the staff of public officials, curtailing the expenditures of government, and devoting a larger sum annually than heretofore to the execution of needful public works and the development of the country's resources. And not only did they go before their constituents with this programme of their intentions, but they made no attempt to conceal the fact that they would at the earliest convenient moment increase the number of paid members of the Cabinet in order to secure greater efficiency in the administration of public affairs. The public were therefore fully apprised as to what the policy of the Government would be, and by the re-election of those gentlemen who accepted office in the present Cabinet the public have not only expressed their approval of that policy, but have, particularly in the re-election of Mr. Armstrong by acclamation, put the seal of their endorsation upon every act and measure of the Government from the day that they took office until the present moment. It is therefore true in a sense that the absence of opposition to the re-election of a Minister is something more ominous than the strongest opposition, and if the *Colonist* can extract any comfort from the fact that all the members who sought re-election were returned by acclamation, it would be ungenerous on our part to seek to deny it perhaps a gratification.

Managua, March 17.—The Government has received official information of the defeat of the Carlist bands, led by Oied Heraia and Dorrigueri, by troops under General Catrano. The insurgents were completely dispersed.

Departure of the Ships "Patrician," &c.

[From the S. F. Alta Feb. 22th.]

The spectators who crowded Meiggs's wharf yesterday afternoon, to witness the departing ships Escocesa and Young America, little dreamed the gallant old ship Patrician, which followed close in their wake, was so soon to be numbered with the things that were. She weighed her anchor at two p. m., in charge of Wm. H. Diggs, a licensed pilot, and was towed to sea by the steam-tug Wizard. The three grand ships went down the harbor in single file, the Escocesa leading and the Patrician bringing up the rear, while the Young America was in the middle. The day was bright and fair and every one looked forward to a fine voyage. The Patrician was a teak-wood ship, of the regular English model, built at Sunderland in 1860 for her present owners, Geo. Marshall & Son, of London. She arrived here from Hongkong about five weeks ago, consigned to Dickson, De Wolf & Co., who loaded her on owners account for orders, at Cork with a cargo of grain valued at $70,000. She passed the Heads at 3:10 p. m., about a mile astern of the Young America, the wind being from the northwest. At 4:30 p. m., Mr. Diggs, the pilot, being satisfied that the ship had a good offing signalled his boat (the J. C. Cousins) and bid the ship adieu. She had cleared the outer edge of the bar, the Heads bearing E. by N. ½ N. The pilot had scarcely pulled away in his light cutter when Capt. Wilson and his Chief Mate, Mr. Gaster, went below and spread their charts on the cabin table to figure out the course. The Second Mate had gone forward to fill away the head yards, and the men sang cheerly as they tugged at the braces. The sea was quite calm but there was a heavy ground-swell running. Just as the fore yards were braced around there came a crash that seemed to shiver the scout hull from deck to delson, and a cry of alarm brought Capt. Wilson and his first officer to the deck. The pumps were set at work immediately, and the men worked manfully, but the water was found to be five feet deep in less than three minutes after the ship struck, which was at 4:34 p. m. The second sounding of the pump taken three minutes later, showed that there was seven feet of water in the hold, and, of course, no pumps could overcome that. Almost immediately after the ship struck, pieces of wood came up, either from the ship herself or from the sunken wreck on which she is supposed to have struck. Certainly there was deep water all along where the pilot left her, and nothing but a sunken wreck could have come in contract with her. The ship was now headed for port, and signals of distress were made to the pilot-boat, when Captain Diggs put down his helm and stood for the doomed vessel, which was firing rockets and sending up blue lights. It being evident that she must sink, the boats were lowered away ready for emergency, there being an officer and four hands in each. The ill-fated ship was then headed for the North Head, and was run ashore on the "Potato Patch," or Four-fathom Bank, with sixteen feet of water in her. The pilot-boat now came up and Captain Diggs advised all hands to leave for safety, so they came on board the J. C. Cousins. So sudden was their departure that the officers and men only saved the cloths in which they stood. One boat was stove in transferring the ship-wrecked men to the pilot-boat, but no lives were lost. The ship fired rockets and guns, so that aid was sent from the city, in the shape of the steam-tug Rescue, but the ship had sunk before she reached it; so she returned to the city. The unlucky Patrician had sunk in about twenty-five minutes after striking the wreck. Her officers and crew numbered thirty-one, all told, and she had no passengers. No one knows of any vessel being wrecked in this neighborhood of late, so it is hard to tell on what wreck she sunk unless it is the wreck of the schooner William Mighell, sunk by the steamer Prince Alfred, about two months ago. We have no information as to what insurance was affected on the ship or cargo prior to her sailing. Captain Wilson, together with the officers and crew, of the ill-fated ship desire us return their sincere and heartful thanks to those on board the pilot boat for their prompt assistance. As soon as he reached the city the Captain communicated with the consignees, who telegraphed the particulars of the loss to the owners in London by the Atlantic and Pacific line, and the American Associated Press forwarded the news to their agents in the East and in Europe.

Homœopathic Cocoa.—This original preparation, which has attained such a world-wide reputation, is manufactured by TAYLOR BROTHERS under the ablest homœopathic advice aided by the skill and experience of the inventors, and will be found to combine an eminent degree the purity, fine aroma, and nutritious property of the fresh nut.

IN MEMORIAM.

At a meeting of the W. M., Officers and Brethren of Nanaimo Lodge, No. 1, held on the evening of the 4th March, 1873, the following Committee, appointed to draft resolutions of respect to the memory of our late Brother, Thomas Shaw Ainsley, Commander of the Oregon Steamship Company's steamer "George S. Wright," who is supposed to have lost his life in the discharge of his duties in January, 1873, in Queen Charlotte's Sound, and

Whereas, it is fitting that we should express our regret and deep sorrow that we feel for the loss of our friend and Brother; therefore, be it

Resolved,—That by the death of Brother Ainsley we have lost an upright Mason, a kind Brother, and those who knew him, an estimable friend and companion.

Resolved,—That a copy of these resolutions of this Lodge be tendered to his family, and that a copy be placed on the hour of their collection.

Resolved,—That the jewels of the Lodge be draped in mourning, and that the members wear the usual badge for thirty days.

Resolved,—That these resolutions be spread upon the Minutes of the Lodge, and that they be published in the Victoria and Nanaimo papers, and that a copy be transmitted to the family of our deceased Brother.

(Signed.)

PUBLIC NOTICE.

SEALED TENDERS addressed to the Chief Commissioner of Lands and Works are hereby invited to be sent to his office by noon of the 14th instant, for the construction of a Trail suitable for horses and mules to pack over, from the head of navigation on the Stickeen River to the Waters of Dease's Lake.

Government propose as remuneration for this work a Charter granting the privilege of Levying Certain Tolls for a stated period. The competition therefore will be on the rates of toll. Tenderers are to offer for the construction of this work, stating in full the schedule of tolls they propose to be authorized to charge and for what period of years as Compensation for the work.

The Government intend to reserve in any charter that may be granted, power to resume the Charter right after. Three months notice on payment to the grantees the actual cost of the works executed to be ascertained and decided, in case of dispute, by the Chief Commissioner of Lands and Works, or other officer for that purpose appointed by the Governor, with twenty-five per cent added thereto as profit on the undertaking.

The Government does not bind itself to accept the lowest or any tender that may be made.

RIGAUD'S COLORIGENE

THE

Incomparable Restorer

OF THE

PRIMITIVE COLOR

OF THE

Hair & Whiskers.

It is free of injurious substances, and may be applied to the hair on pure water itself, so it stains neither the skin nor the linen.

Restores the natural color of the hair gradually so that the change is not perceived even by the most intimate friends.

REALLY WONDERFUL!

Rigaud and Co.'s Perfumery.

8, RUE VIVIENNE,

PARIS.

Patronized by the French fashionable circles, and dedicated to the elegant American society.

SPECIAL ARTICLES RECOMMENDED to the American public for their quality, elegance, and exquisite perfume:—

EXTRACE OF YLANGYLANG

and

MANILLA BOUQUET.

The two favorite perfumes, distilled from the flowers of the Ylangylang (unona odoratissima). Their fragrance is unequalled by anything hitherto known; they impart to the handkerchief the most grateful perfumes for one, they for adorn the Jockey Club, Violet, and other odours. Purchasers must be careful to refuse all bottles not accompanied by our trade-mark and signature.

KANANGA

A New Japanese Perfume.

The fashionable perfume, obtained from the flowers of the Kananga (cyrus japonica) had just imported by Messrs. Rigaud and Co.

RIGAUD'S TOLUTINE.

An admirable toilet fluid. An agreeable substitute for the most esteemed kinds of Eau de Cologne and Toilet vinegars.

MIRANDA Oil.
MIRANDA SOAP

Possesses the most delicious and persistent fragrance, and imparts to the skin a velvety softness. Being entirely free from alkali, this soap cannot injure the skin. A single trial will prove this to combine every desirable quality.

RIGAUD'S DENTORINE.

A dentifrice elixir of unequalled virtues. Sweetens the breath strengthens the gums, and preserves the teeth from decay.

SOLIDIFIED DENTIFRICE CREAM,

This new, elegant, and delightful preparation imparts a sparkling whiteness to the teeth, hardens the gums, and is entirely free from the inconvenience of the various powders, which frequently contain acids injurious to the enamel of the teeth.

GENUINE YLANGYLANG PREPARATIONS

Soap, Pomade,
Oil, Toilet Water,
Powder, Cosmetic.

GENUINE JAPANESE POWDER FOR THE TOILET.

Superior to all other rice powders.

Lands and Works Department,
Victoria, March 10th, 1873. mh11

The Daily Standard

Friday, March 21st, 1873.

Mainland Summary.

The steamers Hope and Lillooet have been plying between New Westminster, to prepare for their summer duties. It was expected that the former would start up river this morning.

Notice to the Press, Post Rest Saloon.—Invariably punctuality—the public generally are invited.

A presentation of testimonials to F. G. Claudet, Esq., took place on Tuesday evening last. Mr. J. A. R. Homer presided and the interesting ceremony was very largely attended. A handsome sword from the members of the Volunteer Corps was one of a number of gifts presented, during which part of the proceedings, Adjutant Edmonds took the chair.

An affray took place at Barnard Inlet between the first mate of the ship Anita now lying at Hastings Mill, and three of her seamen. The mate beat them with an iron belaying pin and has been arraigned before Justice Seymour. His defence is that the men attacked him with knives.

Mr. J. Kennedy is about to commence business as a land agent and conveyancer at New Westminster.

Barnard's Cariboo Express with $11,000 in treasure arrived down on Wednesday last.

A sitting of the County Court has been held before P. O'Reilly Esq., at New Westminster, but no cases of importance arose to be dealt with.

Port Townsend appreciates the efforts of the New Westminster people on the Semiahmoo road matter and offers co-operation and assistance.

Bishop Hills has expressed his satisfaction at the projected scheme for a new church at Chilliwhack.

Cariboo and Upper Country.

Shocks of earthquake were distinctly felt at Yale and Hope about the 27th ultimo. No damage has however resulted.

The Cariboo *Sentinel* publishes an editorial in its issue of the 1st inst, reflecting upon the manner in which the debate on the Constitution Amendment Bill was conducted during the late legislative session; it reverts more particularly to the language of the hon. member for Lillooet.

A very sudden death took place on Lightning Creek, at the Spence claim, on the 24th of Feb. last; a miner named David Eynon broke a blood vessel whilst at work. He was assisted to the shaft by Mr. A. McDonald but died before reaching the surface. The death of the deceased who was well known and much respected is deeply regretted.

A ball was given at Clinton on the 24th of February which did not wind up till the night of the 27th. It was numerously attended and everybody seemed highly pleased.

The *Sentinel* says in it issue of the 8th inst.: "In anticipation of the passage of new mining law a company has been formed on Lightning creek who have located 7000 feet of ground.

The Lake & Forts Cariboo Mining Co have elected the following Trustees:President: Joseph Clark; Ira P. Rankin, George Hearst, J. B. Haggin, C. Greathouse; R. B. Minor, Secretary; C.C. Lane, Superintendent.

During the first week of the present month the gales, near Soda Creek were very violent. In the timber between Alexandria and the Australia ranch the telegraph line was badly damaged. As the gales continued a man was left to patrol that portion of the line. Rain descended in torrents and the weather was very bad.

Several entertainments have recently been given at the Barkerville Theatre; one for the benefit of David Jones was a great financial success.

A letter has been received at Quesnelmouth from the Hon. Attorney General stating that the proposed bridge at that place had engaged the serious attention of the Government when the estimates were being framed but that the financial state of the treasury compelled them to defer the vote for the bridge this (last) session.

The Puget Sound Mails.—A Seattle paper of yesterday gives the following interesting bit concerning the mails: The mail from Olympia, on Monday, came nearer being on Absolute time than any we have had for some time past, being only about five hours late; but it went no further than here. The steamer Favorite was waiting to take it down sound, but Nash could not pay in advance for the use of the steamer, so the Captain refused to carry it. Nash then got the Capt. in of the Blakely, the steamer that came from Olympia with the mail, to take the mail down the Sound. He took it as far as Port Blakely when the owners of the boat at that place refused the use of their steamer unless pilot for in advance, which of course Nash was unable to do, so the mail was returned to this city by the steamer Success, where it now is and undoubtedly will be for some time to come, unless some other arrangement is made. Since the above was written we have been informed that Nash has thrown up his contract, and that a special contract will be let, by the Olympia postmaster, until advices can be had from the Postmaster General. We can now reasonably hope that our mails will come through on time hereafter. [The No th Pacific brought accross our mail yesterday.—Ed Stand ard.]

From the Sound.—The steamer North Pacific arrived here yesterday afternoon, several hours after her usual time, on account of calling in at different way ports for the mails, which the Blakely should have brought some days ago. She brings a good quantity of freight, overland mails, and the following passengers: Mrs. Elder, Mrs. Litlejohn, Mrs. Tittle, Mrs. Eccelbee, Mr Porter and wife, and Messrs. Alman, Lancaster, Cooper, Jones, Wolf, Hill, McLean, Cook, Sigo, Williamson, Bates, McAlister, Stevens, Williams, Robinson, Fleming, Thompson, Parkins, Leitchinson, 12 Chinamen, and 6 Indians.

From New Westminster.—The Enterprise arrived yesterday afternoon from New Westminster, with the mails and following passengers: Mrs. Claudet, Mrs. Hicks, Judge O'Reilly, Capt. Campbell, Capt Jolly, Capt. Hicks, A. T. Bushby, F. G. Claudet, E. Brown, H. McRoberts, G. Oppenheimer, W. J. Armstrong, W. H. Newton, B. Irwin, F. Kaye, Rowbottom, Smith, W. Reilly, Glynn.

Washington Territory.—The water has been very high in the rivers and streams throughout the Territory,—the highest for the past seven years. Trade is reported improving. In real estate, since very dull, the purchase of lands for terminus purposes, the Seattle *Dispatch* says, is of the past.

Pheasants.—A farmer residing at Maple Bay recently killed 165 pounds weight of a pheasant, and it made the eighteenth the number of which he was a witness in the district.

C. A. Ball was given at the Clinton Hotel on that night. A correspondent writes us a report of it, which will appear in a subsequent issue of this journal.

A Provincial Industrial Enterprise

A meeting was held at Messrs. Drake & Jackson's office yesterday afternoon, for the purpose of forming a company to acquire the property known as the Belmont Factory, and the business carried on therein—tanning and boot and shoe manufacturing. The following gentlemen were present: Messrs. J. A. Grahame, R. Finlayson, A. J. Langley, E. Grancini, J. H. Turner, R. Burnaby, A. Kea t, C. Strouss, G. Frame, W. P. Sayward, J. Spratt, W. H. Austin, C. W. R. Thomson, J. Lowe, J. Trutch, J. Boscowitz, U. Nelson, S. Duck, J. Switzer, W. C. Ward, T. L. Stahlschmidt, T. A. Bulkley, Thos. Allsop, W. W. T. Drake, J. B. Matthews, P. McQuade, T. H. Long, W. Bruce, R. W. Pearse, R. E. Jackson, Col. Lane, D. W. Higgins. Mr. Granciti was called to the chair, and Mr. Stahlschmidt was appointed Secretary. The Chairman, Secretary and Mr. Switzer explained the object of calling the meeting; very full details were laid before those present, and much interest was shown in the information given. Messrs. Bulkley & Thomson had visited the manufactory earlier in the day, returning shortly before the meeting, and explained what they had seen; the report was considered favorable. Before the meeting close $23,200 of the stock had subscribed out of the sum named. Terms of payment, it was announced, will be arranged by the Provisional Directors, a list of whom is also given below. The Prospectus will appear on a day or two. The company is named the Belmont Tanning and Boot and Shoe Manufacturing Co. (lim.) The capital is $100,000 with power to increase, divided into 1,000 shares of $100 each. The Provisional Directors are: R. Finlayson, E. Granciti, J. H. Turner, M. W. T. Drake, J. Switzer and T. L. Stahlschmidt. Secretary pro tem., T. L. Stahlschmidt; Solicitors, Drake and Jackson; Bankers, Bank British Columbia. The purchase will include everything—346 acres of excellent land, buildings, machinery, plant, stock, good will, &c., all to be taken at a valuation. The recent addition of the tannery to the boot and shoe manufactory, which was carried on very satisfactorily at a small cost for two years past, has required a considerable outlay and rendered further capital necessary. The factory is well arranged and fitted with every appliance. There is water power—all that is to be desired for this or other manufactories. The sales for 1872 amounted to nearly $300,000. The value of importations of boots and shoes to the Province in 1871 was about $180,000, representing a selling value of say $150,000. In addition to sales of boots and shoes, the sale of leather has to be taken into account; a superior article is being produced. This enterprise having been so far carried on with success, is an assurance that as population increases, very remunerative returns will be realized. The payment for the property will be effected on very favorable terms, and the property itself will be acquired at the nominal price of $80,000, the total cost to the present proprietors. Want of space is our excuse for not placing fuller particulars of this most desirable enterprise before the public. We have only to wish, as we are satisfied it will, that the project will be satisfactorily taken hold of by the people of the Province.

Police Court.

[Before A. F. Pemberton, Esq.]

Thursday, March 20th.

Andrew Loomer, charged by revenue officer Wylde with smuggling, not putting in an appearance, his recognizance was ordered to be estreated.

Matthew Hurley, arrested by Constable Bloomfield, and charged with wilfully and maliciously breaking the door of an Indian house, was remanded for eight days.

Small-Pox Hospital.—The hospital set apart last summer for small-pox patients has at length been recently disinfected, under and by authority of the new Municipal Council. The bedding, furniture, &c., has been burnt, and all danger of infection removed. We would here remark, that the beauty of this much frequented suburb, Nias, is further marred, and its attractiveness as a promenade interfered with on account of the grave of the little child who yielded to the small-pox epidemic of last summer. We have, in writing the paragraph, every sympathy and respect for the parents and the friends of the deceased, but at the same time, we would suggest the removal of the place, at all events, which surrounds and marks the place of interment, which is rather prominent to the gaze of passers by.

Northern Pacific Railway.—The Northern Pacific railroad company are about to commence operations on this end of the road, and have called for proposals for clearing and grubbing forty miles of the road. T. B. Morris is again at Kalama, for the purpose of re-opening the business office of the Northern Pacific railroad at that point, on the 15th of this month, when the work of construction was progressing.

Royal Hospital.—As we have a word to say to-day about hospitals of the city generally, we will take occasion to state that the Royal or General Hospital keeps up the full quota of patients; there are twenty within its doors. We understand the Federal law with regard to Marine Hopitals is in force, and that vessels entering our ports will be compelled to contribute towards the support of infirm seamen.

Lecture.—Mr. Bull's lecture—subject, "Peculiar People"—was delivered last evening at the Mechanics' Institute before a very respectable audience. The subject would seem to our readers to explain itself, and comments would seem to us to be superfluous; the crowded state of our columns too prove to us from alluding to the lecture at fully as we should wish.

Vessels Due.—The Delaware consigned to Welch, Rithet & Co., is due from Honolulu with sugars, &c.; the El Dorado to Hastings Mill, Barnard Inlet for lumber, is due from San Francisco; the King Phillip for Nanaimo to take coal, is also due from San Francisco.

Personal.—The Hon. W. J. Macdonald, Senator for British Columbia, was in the city of London, England, on the 19th ultimo, and expecting to leave for Ottawa in the course of a few days from that date.

The New Buildings.—Ground was broken yesterday by the contractor, Mr. Nicholson, for the removal of the earth, to make way for the foundation of the Government street public buildings.

From the West Coast.—The little trading steamer Leviathan, the property of Messrs. Boscowitz, of this city, arrived from the west coast of Vancouver Island yesterday afternoon.

Decease.—Bishop Hecliveine, of Ohio, U. S., a bright light in the Protestant Episcopal Church, has died recently in Florence, Italy.

Yale Steamers.—The Hope would leave for Harrisonmouth to-day. Her boilers were tested yesterday. It is the intention to commence running to Yale within ten days or so.

The Re-Election of the Hon. Mr. Armstrong.

The re-election of the Hon. Mr. Armstrong for New Westminster District, took place on Saturday last, but owing to the disagreeable state of the weather, the attendance, at the place of nomination was small.

Mr. E. Brown nominated Mr. W. J. Armstrong, and after several appeals by the Returning Officer to the assemblage for another candidate, Mr. W. W. Gibbs volunteered to nominate Mr. Hugh McRoberts. The latter gentleman was not, however, present, and an objection was raised to Mr. Gibbs' nominating any person, on the grounds that he was not a voter. The objection was sustained, and the Hon. W. J. Armstrong was then declared duly elected.

Mr. Armstrong in a few words thanked the electors for the confidence placed in him, and said that he was pledged to support the interests of the Mainland, and they might trust that he would give them no just cause for complaint.

After three cheers for the member elect, the meeting dispersed.

From Nanaimo.—The Douglas with mails, passengers and stock, touched at Nanaimo and way ports, the following are her passengers: Mrs. Charles and child, Miss Hawks, Mr Elliot, S. D. Levi, G. Prevost, Smith, Foster, Stubbs and son, Partridge, Bell, Hurst, Blake, Goldworthy, Sims and Thompson. The Douglas towed out of port of Nanaimo on Wednesday, the Constitution coal laden. The James Chester will be ready to sail to-day.

Naval.—H. M. S. Petorel will sail on Wednesday or Thursday next, for Nanaimo where she will be beached for repairs to her keel &c., thence she will proceed under orders for the coast of Mexico calling in at Mazatlan.

Marine Hospital.—Tenders for the erection of the Federal structure may be expected to be called for shortly.

Direct Steamer.—The steamer Ajax sailed for this port yesterday.

Canadian Summary.

[DATES TO MARCH 4TH.]

Halifax, March 1.—In the House last night, a division took place on the 7th clause of the Address, which relates to education, which resulted in 21 yeas for the Government and 11 for the Opposition. The amendment, therefore, was lost, and the Address passed.

Ottawa, Feb. 22.—Sir John and Lady Macdonald and the Hon. Mr. Langevin are the guests of their Excellencies the Earl and Countess of Dufferin at Rideau Hall, until next week.

Judge Day, of Montreal, the arbitrator for the Province of Quebec for the division and adjustment of the debts, credits, liabilities, &c., of the late Provinces of Upper and Lower Canada, arrived here to-day.

Personal.—Our confrere, Mr. J. S. Thompson, M.P., of the Cariboo *Sentinel*, is in town, looking as hale and hearty as might be expected, after his stay in the gold regions of the Pacific Province, which must be a very paradise to invalids, whilst detestable to doctors.—*Ottawa Citizen, March 2.*

The members of the Dominion Parliament were gathered in full force at Ottawa, on the 3rd, two days before the opening of the session. Nearly all of the British Columbia members are announced in the papers received here yesterday.

Much sympathy is felt for Mr. Sandford Fleming, whose daughter, Miss Jeanie Fleming, expired last night from the effects of cold, contracted at a recent marriage ceremony, at which she acted as bridesmaid.

At the regular temperance gathering held recently, some sensation was produced by the reading of a certificate signed by all the city medical men, to the same effect as the document recently promulgated in Montreal with regard to the evils produced by the abuse of alcoholic liquors as ordinary beverages or otherwise.

The Russell House, and other leading hotels, were commencing to wear a busy appearance from the large number of Parliamentary arrivals.

The trains brought in many members of both Houses, amongst whom were Mr. Speaker Cockburn, to preside over the Commons; the Hon. Senators St. Just, Churchill, McLellan, Blake and Northup; the hon. Messrs. Holton, McAdam, and Campbell.

Military Encampment in Yorkshire.

The *Yorkshire Post* says The Government in compliance with the recommendation made by the Army Organization Commission, is contemplating the formation of a military camp or tactical centre, as it is technically called, for the Northern Counties. With that object in view, Major Crossman has for some time been surveying the district westwards of Leeds on behalf of the War office, and he will no doubt present his report within a very short period. So far as we can gather after careful inquiry, it does not appear to be much the intention of the Government to establish a large military depot, like Aldershot, as to provide barracks for a few regiments of the regular forces, and in the summer months to bring together for combined action the various militia regiments, instead of the latter undergoing their annual training at their usual headquarters. Permanent accomodation will most likely not be provided for more than two regiments of foot, one of cavalry, a battery of artillery, and a company of engineers. A great central arsenal for arms and accoutrements of war will, however, be formed, and in all likelihood the northern head quarters will be eventually removed to the camp from Manchester. The two grand requisites for a tactical centre are obviously good railway and canal accommodation, the former for the transit of troops, and the latter for the conveyance of inflammable stores. A very strong report, we understand, has been already made to the Government in favour of Rumbolds Moor; and it mainly depends upon the report of Major Crossman and the attitude of the owners of the soil and inhabitants of the district whether that site shall be selected or not. It is elevated, salubrious, and well supplied with water. On its sterile plateau there is scope enough for the movements of troops on an extended scale, and it is central and sufficiently remote from the sea to be secure from the sudden attacks of any enemy that might invade our shores. The Midland Railway and the Leeds and Liverpool Canal, which run almost due east and west along the valley to the foot of the South Ridge, give it admirable communication both by rail and water, with all parts of the kingdom. An impression appears to prevail at Ilkley that the camp will be formed on the Ilkley side of Rumbolds Moor, but there seems every reason to believe that, if Rumbolds Moor be chosen, the permanent camp will be erected in a sheltered valley on the Bingley side, about one mile from the Fleece Inn and between three and four from Ilkley. All the troops also would arrive and depart and come be received and despatched, through Bingley, over a mountain railway which would in all probability be made direct to the camp, and that the Ilkley Moor would only be used for the manœuvring of troops.

Marsville Cocoa.—Opinions of the Press.—"Those who have once tried Marsville will do well to do so."—*Morning Post.* "It may justly be called the perfection of prepared Cocoa."—*British Medical Journal.*

PROVINCIAL DISPATCHES.

[BY MAINLAND TELEGRAPH LINE.]

New Westminster, March 19.—The Science of to-day contains an editorial favoring the recent changes in the mining laws.

Mr. Charles Wilson's connection with the *Sentinel* terminated last week.

The only mining news of interest last week is from Lightning creek, there having been no communication with the other outside creeks for some days, in consequence of the late stormy weather.

Lightning creek.

The Watty claim is looking well, and paying one ounce per day to the hand. The El Dorado is now in two or three feeds, and is paying over wages. The Rose bed is running ahead, and their ground is looking more favorable. The Lightning co. have been making wages; on Thursday they struck a prospect in new ground of 23½ to 24 to the pan, and expect to do better in future. The South Wales co. took out 10 oz. last week with two men cleaning bedrock. The rest of the companies are running prospect drives from the main shaft. The Spence Co. washed up 60 oz. on Thursday, and the ground is looking first rate; they have been running a prospect drive into the hill, and got a prospect of 18 to 24 oz. to the gravel under water. The Vanwinkle co. are making good headway with their shaft, and 30 feet to run down stream from their shaft, as the water is getting bad since the Victoria co started their works. The Pioneer co. will start for the season next week, the water in the Victoria co. being low enough to enable them to run their upper drain; they expect pay in seven or eight weeks. The Tabeauver co had to come back and go into their first drive, being some three feet too low, and a great amount of water in the face; they think they will be in by one first of the week. The Clark co. are still running ahead with their upper drive, and expect to be into the channel and look for good prospects in about three weeks. The Gladstone co. are running their balloon drive, and are making good headway. The Elevator Big hand co. are in full blast, bailing out good pay. The Dublin co. are sinking for clay, and are meeting with good results, when eight feet down in red gravel, and think they will find clay in a week, which will enable them to commence their large shaft.

Archipelago De Haro.

The following interesting letter, descriptive of a portion of our Territory, is from Rev. J. F. DeVore to the *Pacific Christian Advocate*:

The family of islands bordering on the Straits of Fuca are attracting great attention at this time.

San Juan, which is sixteen miles in length and four in width, has a good climate—abounds in grass and timestone—each and both being a source of great wealth. The manufacturing of lime is already very profitable, and in time this island will be a source of great wealth to our country. The island has a fair population of English inhabitants, most of whom have become naturalized recently. I understand that there is one house of worship on the island, the pastor of which is the Rev. Mr. Weeks.

Orcas Island, in the same vicinity, is, as the former, noted for its almost endless amount of timber.

There are very many other islands, such as Lopez, Lummi, Pickings and McDonald. Outside of these there are hundreds of little unimportant ones.

Last of all I mention Whidby's Island, which is forty miles long and five miles wide. This island abounds with forests, and beautiful rich prairies, and farmers are doing well. Their products are grain, hay, vegetables, sheep, cattle, and hogs. The principal town on this island is Coupeville. Business houses are doing well. There is one house of worship, of which Rev. D. H. Green is pastor. The climate in this archipelago is very mild, regulated by the sea breeze, winter and summer, with much less rain than on the Columbia river, during the winter months.

The main land east of these islands, abounds in dense forests and vast coal fields. The mines, now in good running order, on Bellingham Bay, are yielding an immense amount of coal, and it is said that another company, with a capital of $3,000,000, are preparing to open a new mine some three miles to the southward of the former mines.

With all these great interests, on the islands, and on the main land, it is predicted that two great continental railroads are to terminate not far from this part of the country; the one, the North Pacific, and the other the Colonial, from Halifax to the Pacific, crossing through British America. And yet, there is not one single paper published in all that region.—*Pacific Tribune.*

Prophetic Views of Spain.

The Washington *Chronicle* prints a conversation which Col. Forney and General Sickles had with Stanton immediately after Sickles was appointed to Madrid. The ex-Secretary is represented as saying:

We must make no mistake about Spain. She is one of our oldest and ablest allies, and behaved splendidly towards us during the rebellion, refusing to open her ports to Confederate cruisers, and never plotting through her minister here like England against our cause. The Spaniards are a proud, peculiar race, and we cannot do any good for liberty in Cuba by hasty action. Their prejudices must be respected. Their interests must not be invaded. Their traditions must be remembered. Things are moving on in the right way at Madrid. I know this, there is a new Spain, and you will both live to see a solid Spanish Republic there if we can only restrain our politicans about Cuba. That pear is ripening and will fall as soon as the days of kings are faded in Spain.

British Capital.

Nothing gives a better idea of the immense opportunity of British capital intelligently managed and of the magnitude of British trade than the dividends of the London banks. The four great banks of the metropolis divided, three of them 20 and one 25 per cent. dividends in 1872, the aggregate both being £1,140,000. The capital of these banks is nominally £8,000,000, but its market value is nearer £20,000,000 The other banks divide from 7 to 10 per cent., and the entire profits of private and coporate banking per annum in London cannot be less than £6,000,000. The sources of this immense profit are, first, the normal commission for doing the banking of British trade, and for the handling and investment of British capital, second, the opportunity of transmuting the cheap capital of the conservative British capitalist into the loans, bonds and stocks of the great outside world, where money is dear and pays a high interest.—*Portland Bulletin.*

Marsville Cocoa.—The *Globe* says: "Taylor Brothers' Marsville Cocoa has every other borough success, and supersedes achieved a Cocoa in the Market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Marsville Cocoa above all others. For Invalids and Dyspeptics, we could not recommend a more agreeable or valuable beverage."

Soluble Chocolate, made in one minute without boiling. The above articles are prepared exclusively by Taylor Brothers, the largest manufacturers in Europe, and sold in tin-lined packets only, by Storekeepers and others all over the world. Steam Mills, Brick Lane, London. Export Chicory Mills, Bruges, Belgium.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

EUROPE.

Rome, March 19.—The Pope gave audience yesterday to one hundred Canadians who had served in the Pontifical Zouaves. He congratulated his visitors upon their steadfast adhesion to the church.

London, March 19.—A furious riot between Englishmen and Irishmen occurred at Wolverhampton, near Birmingham, yesterday. At least 3,000 persons were engaged; firearms and knives were freely used, and much blood shed, though no cases of fatal injury are reported.

Gladstone will his Ulster colleagues have held consultation four hours yesterday; nothing is yet known as to the result.

Three Irish were arrested at Cork yesterday, on suspicion of being perpetrators of the frauds on the Bank of England. They were released this morning, there being no evidence against them.

EASTERN STATES.

New York, March 18.—The New York *Herald's* correspondent with the Cuban insurgents reports the meeting of the Cubans of the expedition expedition in the Cuban camp.

A Keywest special says advices via Havana represent that there is serious trouble in Porto Rico in consequence of emancipation.

There seems to be little doubt that George Francis Train is insane. Dr. Hammond, one of the doctors commissioned by the district attorney, Phelps, to examine into his mental condition, says that the commission found Train to be a man of good education, of brilliant intellect, but undoubtedly of unsound mind. When however the usual form of commitment was presented for signature, Dr. Hammond refused to sign it, as he did not believe Train to be a dangerous person, or likely to do bodily harm either to himself or anybody else. The usual commitment will not be signed, and of course he cannot be transferred to an asylum. His latest assertion is that in thirty days not one stone in the Bastile will be left standing, and that the street of New York are to run with blood.

Treasury agent Jaynes reports that a well known and respected Wall street sugar importer, who is also a Sunday school superintendent, and a member of the board of foreign missionaries, has been detected smuggling silks in sugar samples, which are passed free. The extraordinary weight of the samples excited suspicion.

The Irish laborers who were lately employed on the boulevards, determined to clean out the Italian laborers, who took their places, at less wages, and so to-day a large force of rioters marched to the place where the Italians worked, but the police drove them away. It is feared there will be trouble to-morrow.

CANADA.

Montreal, March 19.—A fire occurred at the St. James Hotel yesterday; a man named Brannan died from suffocation; Bilditch, who fell from a window, died this morning, and two others are suffering from dangerous injuries. Loss, $20 000.

Toronto, March 19.—The *Globe* substantiates the charge of forgery against Dodge, member for North York, by publishing a letter from Canon Ramsay, denying his ever having written a letter signed by his name.

The Ontario Government proposes to establish three new Normal schools.

CALIFORNIA.

San Francisco, March 19.—The steamer Ajax sails to-morrow for Victoria.

The Modoc Indian Business.

Fairchild's, March 14.—Yeeterday, Col. Biddle's men of Co. K. 1st Cavalry, came on a party of Modocs and captured thirty-six horses. They could have killed the Indians were it not for the peace negotiations. Meacham received instructions from Washington to hold on.

Blair returned from the Reservation to-day, and says Old Scouchin and Charley Riddle would not come, and they kept the messenger some days by their false promises and then refused to come. Long Jim, one of the Indians indicted at Jacksonville, was there, and probably told the chiefs that Jack did not intend to come out and they would not see him if they came.

Fairchild's Ranch, March 14—A new Peace Commission has been appointed. It now stands: Meacham, Odneal, Roseborough and Canby.

Ottenn has returned from the lava bed, and says that Capt. Jack wants to talk. He is afraid to come out for fear that Gen. Canby can't control his soldiers. In proof, he cites the fact of their taking the horses, and states that they took four children. This is false, the soldiers behaved so well. The children might have run off into the rocks and got lost. He says Meacham and Fairchild to come and talk with him again.

Yreka, March 18—Col. Sprague and paymaster Hoag, contractor, have arrived from headquarters. They report all quiet at the front. The soldiers are all in good health and spirits. The military are waiting for the deliberations of the new Peace Commissioners, who will meet close to the lava bed, at Van Brunter, where military headquarters have been established. The prospects are favorable that the Indians will come in there for a talk, and if they do not the military will go for them.

What is an Architect?

"There is a story on record of an architect repudiating any connection with the building fraternity, in the case of the late eminent and talented Mr. Alexander, the architect of Rochester Bridge, and several other fine buildings in the county of Kent. He was under cross-examination, in a special jury case at Maidstone, by Sergeant—afterwards Baron Bramwell, who wished to extract from the weight of his testimony, and who, after asking what was his name, proceeded thus: "You are a builder, I believe?"

"No sir; I am not a builder—I am an architect!"

"Pray well? Architect or builder, builder or architect, they are so much the same, I suppose?"

"I beg your pardon, sir—I cannot admit that. I consider them to be totally different!"

"Oh indeed! Perhaps you will state wherein the great difference consists?"

"An architect, sir, prepares the plans, conceives the design, draws out the specifications—in short, supplies the mind. The builder is merely the bricklayer or the carpenter; the builder in fact is the machine—the architect the power that puts the machine together, and sets it going."

"Oh, very well, Mr. Architect—that will do! And now, after your very ingenious distinction without a difference, perhaps you could inform the court who was the architect of the Tower of Babel?"

And now mark the reply, which, for promptness and wit, is perhaps not to be rivalled in the whole history of rejoinders—

"There was no architect, sir—and hence the *confusion!*"

A. Gilmore, Merchant Tailor, has removed his place of business to the store adjoining the Colonial Hotel, Government street, four doors from Yates street, where he is prepared to sell, at reduced rates, Custom Made Clothing and Gents' Furnishing Goods. Also Garments made to order, according to the latest Styles.

Brains.—The advent of this the most cherished season of the year is marked by the renewed vigor in which nature asserts herself, clothing in her most beauteous garb all creation. Imbued with the inspiriting influences of the season and believing that there is a "glorious premier" ahead of us A. B. Gray has made arrangements to receive monthly consignments of all descriptions of Dry Goods. The Prince Alfred on her last trip brought the first of these shipments, comprising a very choice assortment of the newest dress materials, black silks, wool shirtings, shawls, etc., and such a variety of general goods as make his stock complete in all departments. An inspection of the new goods is invited. Government street, 11th February, 1873.

Maravilla Cocoa.—No Breakfast Table is complete without this delicious Beverage.—The *Globe* says, "Various importers and manufactors have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of Maravilla Cocoa. Adapting their perfect system of preparation to this special of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopathic and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills, Brick Lane, London. Export Chicory Mills, Bruges, Belgium.

☞ Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, ceiled with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of spurious imitations.

SURGEON DENTIST.

DR. BARNARD has for several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted for the mounting of whole sets of teeth; he is also using "Whalebone Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanite of the last 25 years.

Gold Fillings and Dr. Crook's celebrated Cement, which will not take out in boiling water, applied with natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other dentist on the Pacific Coast or Island.—For details see daily Colonist.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE,

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public are hereby informed that the only way to secure the genuine, is to

Ask for Lea & Perrins' Sauce,

and to see that their names are upon the *wrapper, lables, stopper,* and *bottle.*

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other imitation by which their right may be infringed.

Ask for LEA & PERRINS' Sauce and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for export by the Proprietors, Worcester; Crosse & Blackwell, London, &c., &c.; and by Grocers and Oilmen universally.

To be obtained of Messrs. JANION, RHODES & Co., Victoria, V. I. fy1tw

NOTICE.

WONDERFUL CURE OF ASTHMA OF 18 YEARS STANDING.

Copy of a Letter from Mr. J. Pordhamel, Mc Devett Tanksper & Grocer, Glenties, Co. Donegal, dated 4th March, 1861.

To Professor Holloway.

Sir,—I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spitting of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at length pronounced by them to be beyond cure;—as a last resource, I was induced to use your Pills and Ointment, and in the short space of a fortnight could walk about, and am now perfectly cured, to the astonishment of all who knew me.

BLOOD TO THE HEAD WITH OINTMENT.

Copy of a letter from Mrs. Mary Foster, Hoof Moon Street, Totness, dated March 16th 1861.

To Professor Holloway.

Sir,—For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times I have scarcely been able to walk; after obtaining the best medical advice without effect, I tried your Pills and in less than a week I was completely cured. Mrs. Dowdell, Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN.

The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early departures from health. Any mother, nurse, or young person guided by the direction which accompany each box of Holloway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross humors. They are, indeed, at all ages, the tried females friend.

DISORDERS OF THE KIDNEYS & OTHER INTERNAL ORGANS.

Loss of appetite and flatulency are usually the forerunners of stomachic disease. These famous Pills exercise the most salutary power in all affections of the liver, and irregularities of the stomach and bowels; they restore a healthy function to every internal organ, overcome all obstructions, and cast out all impurities.

THE ACTION OF THE KIDNEYS & OTHER INTERNAL ORGANS.

The immediate loss of muscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the necessity for prompt and efficient treatment. Holloway's Pills have the great merit of restoring any suspended or diminished secretion, and of relieving any inflammation or congestion in the spleen, kidneys, or other subsidiary organs.

The tight, suffocating, anxious feeling caused by derangement of the heart, makes the sufferer look on present death as imminent. Holloway's Pills prove an efficient and ready remedy when the disturbed circulation depends on indigestion, flatulency, or debilitated nerves. Persons suffering from disturbance of the heart should take about six of these Pills two or three times a week, according to circumstances, to arrest the too active action of the heart.

WEAKNESS, LANGUOR, AND DEBILITY.

These famous Pills will immediately remove all symptoms of debility, languor and weakness as they act upon the main springs of life, and thus save thousands from premature grave.

Holloway's Pills are the best remedy known to the world for the following diseases:—

Ague	Inflammation
Asthma	Jaundice
Bilious Complaints	Liver Complaints
Blotches on the Skin	Lumbago
Bowel Complaints	Piles
Colics	Rheumatism
Constipation of the Bowels	Retention of Urine
Consumption	Scrofula, or King's Evil
Debility	Sore Throats
Dropsy	Stone and Gravel
Dysentery	Secondary Symptoms
Erysipelas	Tic-Douloureux
Female Irregularities	Tumours
Fevers of all kinds	Ulcers
Fits	Venereal Affections
Gout	Worms of all kinds
Head-ache	Weakness, from whatever cause &c. &c.
Indigestion	

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world.

There is considerable saving by taking the larger size.

N.B.—Directions for the guidance of patients in every disorder are affixed to Box.

For Sale,
